

# PROLITE-STRETCH FILM

## It's Light. It's Clear. It's Quiet.

### It's PROLITE from PPI. New technology providing superior load holding at the lowest wrap cost per load!

- Excellent load retention - design offers high film holding power to ensure satisfactory arrival
- Highly elastic film recovery - keeps film tight even if load settles or shrinks
- High strength formulation - tight loads with a minimal amount of film stretching
- Reduced film "neckdown" - film resists reducing in width as it is being stretched, allowing narrower initial film width and/or reduced number of wraps applied to cover load
- Light film gauges - reduces roll weights to minimize operator fatigue while also keeping costs per applied foot lower
- Elevated tear and puncture strength - tough product resists puncturing and tearing
- Aggressive cling package - film stays on load... no film tailing
- Unmatched optics - crystal clear film allows easy reading of case bar codes
- Silent film application - no noise in application

# PROLITE-STRETCH FILM

## PROLITE Specifications

Resource	W	Micron	L	Net Wt	Rolls/Case	Cases/Pallet	Use in Place Of
HY1200355-01	355mm	12.0μ	457M	3.95 lbs	4	64	60-75 ga
HY1200400-01	400mm	12.0μ	457M	4.44 lbs	4	64	60-75 ga
HY1200457-01	457mm	12.0μ	457M	5.08 lbs	4	64	60-75 ga

## Characteristics

## ASTM Methods

## Values

Elongation MD (%)	D882	265%
Elongation TD (%)	D882	710%
Tensile Ult, MD (PSI)	D882	9900 PSI
Tensile Ult, TD (PSI)	D882	4050 PSI

## Metric Conversion Chart

Film Thickness		Film Width		Film Length	
Micron	Gauge	mm	Inches	M	Feet
10.2	40	275	10.8	450	1476
12.0	47	325	12.8	457	1500
12.7	50	355	14.0	600	1968
13.5	53	400	15.7	610	2000
14.0	55	457	18.0		
14.5	57			Film Weight per Roll (core not included) Length (ft) x Micron x Width (in) 63,500	
15.2	60				
16.0	63				
16.5	65
