# PACKAGING TAPE

## **Hot Melt Adhesive**

Hot Melt offers the widest range of application flexibility available. Their superior adhesion properties, hold tensile strength ensure consistent, reliable seals.

## **Acrylic Adhesive**

Acrylic sealing tape is best suited for applications in temperatures less than 40 degrees F and greater than 120 degrees F. Offering excellent clarity in extended periods of sunlight and fluorescent lighting.

## **Natural Rubber Adhesive**

Rubber tape, the most aggressive adhesive available, offers fast bonding on difficult applications, such as high recycled content or dusty and dirty environments.

## **Specialty Products**

Printed tapes available, company names, fragile, do not open offering effective advertising or identification.
